WEAR YOU WANT TO BE

BRAEVAL

MADE IN MOTHER NATURE'S FACTORY ~ WE A R YOU WANT TO BE

Whether you're a longtime customer or a new friend to our brand welcome to BRAEVAL 2022. Over Twenty Five years ago, while I introduced Timex into the Outdoor trade, I noticed the prevalence of synthetic fabrics being used in performance outdoor wear. My plan was to create an "All Natural Performance fabric" as an alternative to petrol chemical synthetic materials developed in a test tube in a laboratory. That quest led to TIERA™ All Natural Performance fabric that also look and feel great. The fact is Mother Nature provides creature with the ability to survive the harshest of climates hot or cold. Form Follows Function and Fashion is the derivative. Trust in knowing that we offer you a sustainable, biodegradable

All Natural Tiera combined with exclusively designed tartans and plaids inspired by my time spent in the Upland River Valley's of Scotland chasing Stag, Salmon and Grouse. Wearable, breathable, natural Tiera fabric created to be timeless, sophisticated, and distinctly American in style and ruggedness. ~ Never underestimate the Performance of Tiera fabric ~ As rough and ready as B R A E V A L is, we are a Wolf in Sheep's clothing..... Form ~ Function & Style in the Field or on the Town

FOUNDER - Gregor McCluskey

ABOUT OUR SYMBOL

Big Jock McCluskey who came from the crags and Braeval of Scotland brought the Rob Roy MacGregor tartan to America in the 1800's.

Legend has it that Native Americans had never seen cloth dyed a brighter red, and believed it was made from the blood of McCluskey's prey and enemies.

Like many things that crossed the Atlantic, the tartan received a new name and became uniquely American and distinctly Braeval.

Buffalo Plaid was born...

Big Jock McCluskey

**LIKE MANY THINGS THAT CROSS THE ATLANTIC
AND TAKE ON A NEW NAME, BUFFALO PLAID WAS BORN!**

FORM, FUNCTION & STYLE

FOR THE SPORTING ADVENTURER IN THE FIELD OR ON THE TOWN

BraeVal is a Scottish word for the Upland River Valleys that exist between the mountains and rugged brae of the Scottish highlands, where streams and rivers tumble to loch and sea. It is pronounced "brave-all." It is a land of arduous challenges in a place where sporting adventure is welcomed as part of a very robust and BraeValian lifestyle that values grace, elegance, and performance in the field, or on the town; as genuine as the sporting life we share. At BraeVal, we stand for authenticity and our mission is to outfit you with the most comfortable apparel afield. *WELCOME TO THE BRAEVAL TRADITION.*

SUPERIOR FABRICS FOR SUPERIOR GARMENTS

TIERA™ FABRIC - Natures Technology

A superior fabric for a superior shirt. Technically-advanced proprietary all-natural Tiera fabric ring spun of Merino wool, and long staple cotton resonates with the earth we travel on the way to adventure. Tiera fabrics provide climate control by self-regulating in various temperature spectrums. A superior, durable, luxuriant and all-natural alternative to synthetics, and petroleum-based performance fabrics. Wool, the strongest and best wicking fiber in the world; fused with long staple cotton known for its softness, comfort and high absorption blended together creates an outstanding performance fabric. Tiera fabrics are of the earth 100% natural, sustainable, renewable and biodegradable. Our colors

and patterns are designed by us and inspired by the classic checks and plaids historically used as sporting camouflage in the highlands. The goal of Tiera fabrics is total comfort, whether in the field, or on the town.

BRAEVAL STORM ~ GLEN™ Wax Cotton

Scottish seafarers created the first waxed cotton fabric in the late 1700s by applying fish oil and grease to their garments, making them impervious to the bracing Scottish elements. Today, BraeVal sources STORM GLEN™ wax cotton from Scotland, the world's only vertically integrated Mill that weaves and impregnates our threads versus spraying. The highly sought-after STORM GLEN™ wax cotton has reached its pinnacle in the form of BraeVal garments! The impregnating process and formulation of various waxes provide lifelong resistance to inclement weather. Our proprietary blend of waxes imparts a high degree of water repellency, low temperature flexibility, high-melt-point, shorter break in period, unique patinas, and perfect drape adding to the extreme durability of waxed cotton. Over time, you will see and feel the unique patinas and individual character that BraeVal and STORM GLEN™ wax cotton impart. Enjoy BraeVal's STORM GLEN™ wax cotton in the field or on the town!

BUFFALO LEATHERS "Not Your Ordinary Leather"

Rob Roy MacGregor Buffalo Plaid meets our Buffalo Leathers. Our hand-selected, free-range Buffalo hides produce a very durable and pliable leather with unique patinas and a strength not found in ordinary leather. BraeVal uses hand-selected Buffalo hides in our vests, over shirts, jackets, and pants. Thick full-grain hand cut Buffalo hide offers rich, natural grain, earthy patterns, not readily found in cowhide. We offer our Buffalo in several proprietary finishes in: Nubuck, Wax Finish, Pebbled etc.

SHEPHERD'S TWEED

We traveled to the UK to develop our Shepherd's Tweed from sheep that live in the harshest climate. Woven in a traditional yet mid-weight woolen herringbone for superior wicking, wind protection, and total climate control. All-natural long staple fibers spun and woven in the British Isles the old-fashion way makes our Shepherd's Tweed an heirloom quality piece generational in value. Each BraeVal Shepherds Tweed is hand cut and tailored for an active fit in the traditional way using only the finest Tweed and trimmings, milled and woven in the British Isles.

VINTAGE WEAVE MOLESKIN

Our Vintage Weave Moleskin is imported and milled to our specification. Vintage Weave Moleskin was developed as a light weight, hard wearing, enduring cloth, that provided miners and steelworkers with lasting durability while providing comfort. Today, these attributes have made it popular in country wear and field sports. Our combination of dense weave and natural cotton fiber make it virtually wind-proof, warm in winter, yet cool in spring and summer. It is also snag-resistant and quiet in the bush.

GHILLIES JACKET
OVERLAND
 Men's M-XXL

WOODLAND WOOLENS
WOODLAND WOOLENS

\$260.00
\$250.00

GHILLIE with leather shoulder patch. New- **OVERLAND** Without shoulder patch, your choice. Both Jacket's have nine well organized pockets, sized, and positioned properly. Pocket placement allows for immediate access to all gear; fly boxes, GPS, phone, Bird ID handbook, binoculars, shells, chokes. The arm pockets provide quick access to phone or jotter pad when afield. The rear carry-all game pocket allows me to take lunch and a bottle of BræVal on my hike. The jacket acts as a layer in early fall and provides warmth without bulkiness in the winter. Performs in the field or on the town. Tack button up front, two position cuff snap buttons, flat sewn chest pockets, bellow arm pockets, and rear carry all game pockets. **GHILLIE** has leather patch and collar. "Ghillie" is a highland Scots term that refers to a man who acts as an attendant on fishing and hunting expeditions.

OVERLAND – All features except no leather patch. Leather collar.

The Trossachs refers to an area of wooded glens and braes with quiet lochs, lying to the east of Loch & Ben Lomond generally known as the gateway to the Scottish Highlands. The Trossach was Scotland's first designated National Park. Our Trossach Jacket and Vests are inspired by the hardy folks such as Rob Roy MacGregor who, like him, will walk the many paths and trails that abound in the Trossach area

Our TROSSACH jacket and vests are crafted of waxed Buffalo newbuck in antique brown which highlights the buffalo's patinas. Stand up collar, diamond quilting, three zippered outer and two interior pockets. Functional rear carry-all zippered pocket. Perfection in the field or on the town.

CALL FOR WOMEN'S

Natures Technology SUPERIOR FABRIC FOR SUPERIOR SHIRTS

Technically advanced proprietary all-natural Tiera fabric ring spun of Merino wool and long staple cotton resonates with the earth we travel on the way to adventure.

Cotton & Merino Wonder Fabric:

Tiera is a proprietary blend woven in Merino wool and long staple cotton creating an amazing all-natural performance fabric which is better for the Earth and you.

Self-Regulating:

Tiera fabric provides climate control by self-regulating in various temperature spectrums - Cools body when hot and warms body when cold - Merino wool has the best thermo-regulating molecules which = comfort.

Micro Environment Control:

Hydrophobic (water repelling) exterior and Hydrophilic (water loving) interior makes the comfort of Tiera possible. Wool will keep you warmer than cotton if you take a plunge in a cold stream...

Recycle:

Tiera fabrics are of the earth 100% natural, recyclable, sustainable, renewable, and biodegradable.

Moisture Control:

Tiera fabric transports moisture in a vapor form keeping you dry and comfortable - Merino wool can absorb 35% of its weight without noticeable dampness.

ODOR:

Tiera's ability to control and transport odor away from skin makes it an ideal all-season fabric while maintaining dry, comfortable, air closest to your skin. Less washing required.

Strength:

Merino wool is the strongest fiber; wool fibers will bend over 40,000 times before breaking. Merino fibers act like a spring and maintain original shape after stretching.

Easy Care:

Tiera fabrics can be worn more often without washing or drying and are better for our environment. Sending out to laundries is not required. It also expels spills and does not readily hold stains.

Natures Technology:

Made in Mother Nature's factory, Tiera is an all-natural performance fabric that provides climate conditioning.

Easier Care:

Merino wool resists wrinkling. Little or no ironing is needed. Merino wool acts like a spring and will snap back into shape. Tiera even helps reduce static.

Petroleum Based Alternative:

A superior, durable, luxuriant, and all-natural alternative to synthetics and petroleum-based performance fabrics.

Flame Retardant:

Merino is naturally flame resistant, exceeding that of almost all other textile fibers - Enjoy more campfires!

The goal of Tiera fabric is total comfort, in cold or warm weather, in the field, or on the town.

BRÆVAL

WHY BRÆVAL: SEVEN TIMES LONGER TO PRODUCE COMPARED TO TYPICAL SHIRT
FOURTEEN MORE FEATURES THAN TYPICAL SHIRT
